

Najeeb Said

FULL-STACK & MOBILE DEVELOPER · SWAT, PAKISTAN

✉ hello@njbsyd.dev (<mailto:hello@njbsyd.dev>) github.com/NjbSyd (<https://github.com/NjbSyd>)
[in LinkedIn](https://www.linkedin.com/in/najeeb-said-170477234/) (<https://www.linkedin.com/in/najeeb-said-170477234/>)

I build production React Native mobile apps, Next.js web applications, and Node/PostgreSQL backends.

EXPERIENCE

Lead Full-Stack Engineer · Learnsignal 2026 – present

Architect Supabase/PostgreSQL schema and RLS policies for an LMS; rebuilt Stripe integration and deployed Claude 3.5 Sonnet exam-grading pipeline.

Senior Full-Stack & Backend Engineer · Bell Partners 2025 – 2026

Rebuilt ArtistServe REST API and dual-write migration; engineered PostgreSQL analytics platform and BullMQ worker services.

Lead Mobile App Engineer · SwipeTech 2024 – present

Primary engineer for Dubai Daily Deals in React Native; executed React Native 0.73 to 0.84 New Architecture migration.

Lead Full-Stack Engineer · Sparking Asia 2024 – 2025

Architected three-tier CMS with AdonisJS, React, and Next.js; refactored routing from wildcard DNS to path-based URLs.

Software Engineering Student & Developer · COMSATS & Remote 2020 – 2024

Built CUI-ATD-Companion scraper and offline app serving university students, EasyCarWash marketplace, and JavaFX/MySQL software engineering projects.

SELECTED PROJECTS

Dubai Daily Deals SwipeTech / 2024 – present

Consumer mobile application for Dubai deal-seekers, offering geo-fenced deals, event ticketing, and interactive merchant maps.

📱 React Native · 📄 TypeScript · 🔗 TanStack Query · 🛠 Zustand · 🔄 Reanimated

Learnsignal LMS Learnsignal / 2026 – present

Educational LMS platform providing course materials, billing, and automated exam grading for professional accounting students.

🗄 PostgreSQL · 🔗 Supabase · ⚙ Next.js · 💳 Stripe · ⭐ Claude

ArtistServe Bell Partners / 2025 – 2026

Multi-tenant music-rights management platform enabling record labels and imprints to manage rights, track analytics, and handle payouts.

 Node.js ·  Express ·  PostgreSQL ·  DynamoDB ·  RBAC

Bell Analytics & DistroNation

Bell Partners / 2025 - 2026

Multi-tenant analytics platform and automated reporting suite for music distributor and record label teams.

 PostgreSQL ·  DynamoDB ·  BullMQ ·  Redis ·  Node.js

DIFM

Sparking Asia / 2024 - 2025

Multi-tenant content management system and website builder enabling non-technical staff to publish branch microsites.

 Next.js ·  AdonisJS ·  PostgreSQL ·  React

OSAC

Personal project / 2025

Self-hosted desktop garage-management platform for auto repair shop front-office staff and service technicians.

 AdonisJS ·  PostgreSQL ·  Supabase ·  Tauri ·  React

PithDB / PithKV

Personal project / 2025 - 2026

From-scratch storage engine in Rust exploring B-tree page indexing, write-ahead logging, and crash-safe mmap key-value storage.

 Rust ·  Storage engines ·  mmap ·  WAL

Cura

Personal project / 2026

Offline-first desktop clinic-management application built for medical offices operating under intermittent internet connectivity.

 Tauri ·  Rust ·  SQLite ·  Supabase ·  Next.js

EDUCATION

BS in Software Engineering, COMSATS University Islamabad (Abbottabad campus).
